PROFILE

Web Developer with hands-on experience in React.js, JavaScript, Node.js, Express.js, and MongoDB. Skilled in building responsive web applications, integrating REST APIs, implementing authentication, and developing reusable UI components. Experienced in taking projects from development to production deployment.

TECHNICAL SKILLS

Frontend React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive Web Design, Vite

Backend Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

Tools Git, GitHub, VS Code

Programming Java, JavaScript

EXPERIENCE

Web Development Intern — Merkur Gaming India Private Limited

Jul 2026 – Jul 2026 | Apps Department

- Developed a **Memory Journal mobile application** as part of the Apps Department internship.
- Gained hands-on exposure to **Angular and Ionic** for mobile/web application development.
- Worked under guidance and supervision to implement application functionality and user-facing features.
- Collaborated within a professional development environment and followed assigned development tasks and requirements.

PROJECTS

TaskFlow — Full-Stack Task Management Platform ↗

React.js • Express.js • MongoDB • JWT • REST API • Vercel • Render

- Built and deployed a full-stack productivity platform for managing tasks, projects, deadlines, calendar schedules, and progress.
- Implemented JWT authentication with HTTP-only cookies and protected user-specific task and project data across the application.
- Developed responsive Dashboard, Today, Projects, Calendar, Analytics, and Settings views using reusable React components.
- Implemented browser push notifications for upcoming task reminders and connected a production frontend with a deployed Express/MongoDB backend.

Weatherly — Responsive Weather Application ↗

React.js • Vite • Tailwind CSS • Open-Meteo API • Motion

- Built a responsive weather application providing current conditions, hourly forecasts, 7-day forecasts, detailed weather metrics, and current-location weather.
- Integrated Open-Meteo weather and geocoding APIs with city search, location selection, loading states, and error handling.
- Designed a polished dark interface with reusable components, responsive layouts, horizontal mobile forecasts, and smooth Motion animations.

Portfolio Website — Frontend Developer Portfolio ↗

React.js • Vite • Tailwind CSS • Motion

- Designed and developed a recruiter-focused portfolio to showcase frontend skills, projects, education, and contact information.
- Built responsive sections and animated interactions with a modern dark visual system optimized for desktop and mobile.

EDUCATION

G. B. Pant University of Agriculture and Technology

Aug 2024 – June 2027

B.Tech — Information Technology

Govt. Polytechnic Srinagar Garhwal

Aug 2021 – June 2024

Diploma — Information Technology

CERTIFICATION

Delta — Full Stack Web Development | Apna College

Certificate of Completion
